Guiding lights

In a classroom filled with books and pens,
Where students and teachers become good
friends, A bond is formed that's strong and true,
A special connection, just like glue.

Teachers guide, like beacons in the night,
Igniting minds, inspiring us to take flight.
Patiently they listen to every concern,
Encouraging growth, helping us learn.

Students, eager to absorb knowledge's breath,
Humbled by teachers who believe in our best.
In their guidance, we find endless inspiration,
A fertile ground for our aspirations.

Lessons taught extend beyond the books,
Building character and exploring new nooks.
Teachers become mentors, guiding our way,
Empowering us to face challenges each day.

Students and teachers, together we thrive,
Through ups and downs, we will always strive.
From classrooms to lives, the bond remains
strong, A connection that lasts, forever lifelong.

For in these moments, memories we'll keep,
The friendships and guidance, forever deep.
Students and teachers hand in hand,
United by a bond, that can't be banned.

POEM WRITING

Even the clock fails in punctuality with
her,

She walks in class just like a queen into
her castle,

Her voice conquers our ears,

Even the breeze in class is under her
control,

Her signature is rarer than getting
autograph,

A gentle GOOD from her makes my day
good.
